NOTICE

Carefully read and fill all forms included in this customer trading agreement and make sure that all the information provided is complete, clear and accurate before you sign.

This customer trading agreement will be your contract with CFSA and will govern the relationship between you and CFSA.

This customer trading agreement contains important disclosures relating to the risk associated with trading over - the - counter spot and forward foreign currency contracts and any similar (collectively known as 'OTC FX'.) You **MUST read these disclosures carefully.**

CUSTOMER TRADING AGREEMENT

Please carefully read this legal customer trading agreement.

This Customer Trading Agreement (the "Agreement") is between CFSA a Stock corporation organized under the laws of Switzerland, its successors and assignees, and the party (or parties) executing this document.

In consideration of CFSA agreeing to open and maintain one or more accounts of the undersigned (referred to hereinafter as "Customer") and providing services to Customer in connection with over-the-counter spot and forward foreign currency contracts and any similar instruments (collectively referred to as "OTC FX"), which may be purchased or sold by or through CFSA for the Customer's accounts(s), the Customer agrees as follows:

1. AUTHORIZATION

CFSA is authorized to open one or more accounts in Customer's name at CFSA to carry Customer's contracts in OTC FX (collectively, the "Account"). CFSA is further authorized to purchase and sell OTC FX for Customer's Account with a counterparty bank or sophisticated institutions or participants in accordance with Customer's oral (proper identification required), written (signature required) or electronic (password required) instructions. Unless instructed by Customer to the contrary in writing, CFSA is authorized to execute all orders with such banking institutions, counterparty, bank, or sophisticated institutional participants as CFSA deems appropriate. CFSA may engage in foreign exchange contracts transactions with Customer where CFSA will act as the counterparty to the Customer in such transactions.

2. RISK DISCLOSURE

CFSA requires that the Customer (in this section 2 Customer is referred to as "you" or "your") be aware of the risks involved in trading OTC FX. When deciding whether to trade in OTC FX you should take into account the following risks inherent in OTC FX trading. This disclosure statement is not all-inclusive but rather highlights certain of the more significant risk factors and special circumstances relating to OTC FX trading. By executing this customer trading agreement you acknowledge that trading OTC FX contracts is a speculative and risky activity and that you understand the risks contained in this section and all other risks inherent in OTC FX trading. You further acknowledge and agree that despite such risks, you are willing and able to assume the financial risks and other hazards of trading in OTC FX contracts.

A. OTC FX Trading on Margin Is Very Risky

OTC FX Trading is highly speculative and is suitable only for those who (i) understand and are willing to assume the economic, legal and other risks involved, and (ii) are financially able to assume losses significantly in excess of margin or deposits. Foreign currency prices are highly volatile. Price movements of foreign currencies are influenced by, among other things, interest rates, changes in balance of payments and trade, domestic and international rates of inflation, international trade restrictions and currency devaluations and revaluations. For example, there can be serious market disruptions if economic or political events locally or overseas affect the market. It is not possible to foresee all risks in advance. You represent, warrant and agree that you understand these risks; that you are willing and able, financially and otherwise, to assume the risks of foreign exchange trading and that the loss of your entire Account balance will not change your life style. You recognize that guarantees of profit or freedom from loss are impossible of performance in OTC FX trading. You acknowledge that you have received no such guarantees from CFSA or from any of its representatives or any introducing agent or other entity with whom you are conducting your CFSA account and have not entered into this customer trading agreement in consideration of or in reliance upon any such guarantees or similar representations.

B. Low Margin and High Leverage Can Result in Rapid and Total Losses in a Volatile Market

The high leverage and low margin associated with OTC FX can result in significant losses due to price changes in OTC FX. A relatively small market movement will have a proportionately larger impact on the funds that you have deposited or will have to deposit; this may work against you as well as for you. You may sustain a total loss of initial margin funds and any additional funds deposited with CFSA to maintain their position. If the market moves against your position or margin levels are increased, you may be called upon to pay substantial additional funds on short notice to maintain your position. If you fail to comply with a request for additional funds within the time prescribed, your position may be liquidated at a loss and you will be liable for any resulting deficit.

C. Trading OTC FX with CFSA

When you trade OTC FX contracts with CFSA, CFSA will act as principal in a privately negotiated contract with you. CFSA may, in turn, enter into “back-to-back” transactions with others which may include its affiliates. A mark-up is included by CFSA in the price it quotes to you. The OTC FX contract transactions are not executed on an exchange and are not cleared by a central clearing organization. Therefore, any contract with CFSA will be an obligation of CFSA and not an obligation of a clearinghouse. For this reason you will not be afforded the regulatory and financial protections afforded to contracts traded on an exchange. Both you and CFSA are obligated to perform your respective responsibilities and obligation under each transaction in accordance with its terms. The terms of each contract are set out in: (i) this CFSA customer trading agreement which applies to every transaction you enter into with CFSA, and (ii) confirmation which will apply to that particular transaction. Your obligations under the transaction are not transferable to another person because each foreign currency contract is a transaction between you and CFSA. These obligations may only be transferred to another person with CFSA’s express consent. In addition, CFSA is under no obligation to terminate or close out the transaction prior to the expiration date for that transaction. CFSA may, but is not obligated to quote you a price for an early close out of a contract on request.

D. Contracting as Principal

CFSA acts solely in the capacity of an arm’s length contractual counterparty to you in connection with the OTC FX contract transaction and not in the capacity of your financial adviser or fiduciary. You should not regard any transaction proposal, suggested hedging strategies or other written materials or oral communications from CFSA as investment recommendations or advice or as expressing CFSA’s view as to whether a particular transaction is suitable for you or meets your financial objectives. In addition, any market or quote that CFSA makes for you may be based solely on markets or quotes that are made or quoted to CFSA by the counterparties with which it does business. Such quotes or markets may not represent the best quotes or markets available to you or CFSA from other sources and CFSA undertakes no obligation to obtain competitive quotes or markets from other counterparties. CFSA and its affiliates may from time to time have substantial positions in, and may make a market in or otherwise buy or sell instruments similar or economically related to, OTC FX transactions entered into with you. CFSA and its affiliates may also carry out proprietary trading activities, including hedging transactions related to the initiation or termination of a foreign currency contract transaction with you that may adversely affect the market price or other factors underlying the foreign currency contract transaction entered into with you and consequently, the value of such transaction. CFSA, its personnel and affiliates and various other parties may execute orders at the same or better prices ahead of a Customer order.

E. Off-Exchange Transaction and Limited Liquidity

Due to the circumstances addressed in parts 2(c) and 2(d), your OTC FX transactions with CFSA will not occur on a regulated exchange and it may be difficult or impossible to liquidate an existing position, to assess the value, to determine a fair price or to assess the exposure to risk. For these reasons, these transactions may involve increased risks. Off exchange transactions may be less regulated or subject to a separate regulatory regime. Before you undertake such transactions, you should familiarize yourself with applicable rules and attendant risks. Transactions on markets in other jurisdictions, including markets formally linked to a domestic market, may also expose you to additional risk. Such markets may be subject to regulation, which may offer different or diminished investor protection. Before commencing trading, you should enquire about any rules relevant to particular transactions. The local regulatory authority will be unable to compel the enforcement of the rules of regulatory authorities or markets in other jurisdictions where your transactions have been effected. You should ask the firm with which you deal for details about the types of redress available in both your home jurisdiction and other relevant jurisdictions before you start to trade.

F. Your Obligations and Risks in Spot and Forward Transactions

From time to time you will be responsible to meet the obligations, in accordance with the terms of the contract, arising under a foreign currency spot or forward transaction. These transactions may be used to establish long or short positions in the market. A spot contract is a cash market transaction to buy or sell a specific quantity of currency immediately, physical settlement will be required in no more than two (2) days. A forward contract is a contract to buy or sell a specific quantity of currency on a specific date in the future at a specific price. Forward transactions are economically similar to exchange-traded futures contracts. The price terms and characteristics of spot or forward transaction, unlike exchange future contracts, are privately negotiated, accordingly, there is no centralized price source and the transactions are not cleared through a clearinghouse. In general, the OTC FX market is (i) unregulated; (ii) there are no limitations on daily price movements (unless imposed by a government or central bank authority), (iii) no rules to regulate valuation or settlement procedures, and (iv) no minimum financial requirements for market participants. On the defined settlement dates for spot and forward contracts you may be obligated to pay CFSA or receive payment through either the physical delivery of currency or cash settlement. The means of settlement are governed by the terms of the specified contract. The size of the cash settlement payment or deficit is dependent on the type of position you have and the direction of the market movement in the time since the position was established. You will be exposed to the movement in the price of the market unless you have an underlying currency position that the forward contract is hedging.

G. Electronic Trading

OTC FX is generally completed through CFSA’s web based electronic trading system.

Trading on an electronic trading system differs from trading in the open outcry market. If you undertake transactions on an electronic trading system, you will be exposed to risks associated with the system including the failure of hardware and software. CFSA’s automated order entry system provides immediate transmission of Customer’s order once Customer enters the notional amount and clicks “Buy/Sell.” There is no “second look” before transmission, and market orders cannot be cancelled. The result of any system failure may be that your order is either not executed according to your instructions or is not executed at all.

H. Commission and Other Charges

Before you begin to trade, you should obtain a clear explanation of all commission, fees and other charges for which you will be liable. I. Accesses and security

The Automated Systems may be used to transmit, receive and confirm execution of orders, subject to prevailing market conditions and applicable rules and regulations. CFSA consents to grant you the access and the use of the Automated Systems, subject to your adoption of the required procedures to prevent unauthorized access to and use of the Automated Systems. In any event, you agree that you may be made financially liable for trades executed through the Automated Systems. Based on the foregoing, you acknowledge represent and warrant that: a) you have received a password or other sequence, which provides access to the Automated Systems; b) you are the sole and exclusive owner of the said password and, c) you accept full responsibility for use and protection of the said password as well as for any transaction occurring in an account, opened, held or accessed through the password.

You are further responsible for the monitoring of your account(s). You shall immediately notify CFSA in writing if you become aware of any of the following: a) any loss, theft or unauthorized use of your password; or b) any failure by you to receive a message stating that an order was received and/or executed or; c) any failure by you to receive an accurate confirmation of an execution or; d) any receipt of confirmation of an order and/or execution, which you did not place; e) any inaccurate information in your account balances, positions or transaction history.

3. LIMITATION OF LIABILITY (RISK OF LOSS)

A. All transactions affected for Customer's Account and all fluctuations in the market prices of the OTC FX contracts carried in Customer's Account are solely at Customer's risk, and Customer shall be solely liable therefore under all circumstances. Customer represents and warrants that Customer is willing and financially able to sustain such losses, and that the trading of foreign currency contracts is suitable for Customer. CFSA is not responsible for the performance or non-performance by any third party (including other dealers or banks) to CFSA of its obligations in respect of any OTC FX contract or other property of Customer; or for delays in the transmission, delivery or execution of Customer's orders due to malfunctions of communications facilities or systems or other causes beyond CFSA's reasonable control or anticipation. CFSA shall not be responsible for the actions or non-actions of agents selected by CFSA in good faith or appointed at the request of Customer, whether such action and/or non-action amounts to negligence or inability on the part of the relevant agent.

B. Customer consents to CFSA's use of automated systems or service bureaus in conjunction with Customer's Account, including, but not limited to, automated order entry, order routing and/or order execution systems; record keeping, reporting and Account reconciliation systems; and risk management systems (collectively, "Automated Systems"). In addition, Customer will be allowed access to certain Automated Systems in order to place orders for transactions in OTC FX and to access other account services and products provided by CFSA. Customer understands that the use of Automated Systems entails risks, including, but not limited to, interruption of service, system or communications failure, delays in service, and errors in the design or functioning of such Automated Systems (collectively, a "System Failure") that could cause substantial damage, expense or liability to the Customer. CFSA makes no representation or warranty of any kind, express or implied, with respect to the selection, design, functionality, operation, title or non-infringement of any automated system, and makes no express or implied warranty of merchantability or fitness for a particular purpose, title and/or non-infringement, and specifically disclaims any implied warranty with respect thereto. Without limiting the foregoing, CFSA expressly disclaims any representation that any automated system will operate uninterrupted or be error-free.

C. In addition to the limitation of liability set forth in Section 3(a) above, CFSA will have no liability whatsoever for any claim of loss, cost, expense, damage or liability of Customer or any third person arising out of or relating to any System

Failure, regardless of whether such claim is based on contract, tort, strict liability or any other theory. CFSA will not have any liability for the actual or alleged insufficient exercise of care in selecting any sub-agents or in selecting, monitoring or operating any Automated System, for any failure or delay in informing Customer of any System Failure or in taking action to prevent or correct any such System Failure. In no event will CFSA have any liability for any incidental, special or consequential damages, including, but not limited to, loss of profits or loss of use, even if CFSA was aware of the likelihood of such damages. CFSA has no responsibility to inform Customer of (i) any decision to use, not use or cease using any Automated System, (ii) the characteristics, functions, design or purpose of any Automated System, or (iii) any specific risks inherent in any Automated System.

4. PRICING INFORMATION; QUOTING ERRORS

A. Customer acknowledges: (i) any information communicated to Customer by CFSA or by any person within the company, does not constitute an offer to sell or the solicitation of an offer to buy any OTC FX contract, (ii) such information, although based upon information obtained from sources believed by CFSA to be reliable, may be incomplete and may be unverified, and (iii) CFSA makes no representation, warranty or guarantee as to, and shall not be responsible for, the accuracy or completeness of any information furnished to Customer. Customer acknowledges that CFSA and/or its officers, directors, affiliates, associates, members or representatives may have a position in or may intend to buy or sell OTC FX, which are the subject of market information furnished to Customer. Customer acknowledges that CFSA makes no representations concerning the tax implications or treatment of contracts. B. Should a quoting error occur due to a mistype of a quote or misquote given by telephone (including responses to Customer requests), CFSA is not liable for any resulting errors in account balances and reserves the right to make necessary corrections or adjustments on the Account involved. Any dispute arising from such quoting errors will be resolved on the basis of the fair market value, as determined by CFSA, in its sole discretion, of the relevant Currency at the time such an error occurred. Customer must review and report immediately errors on confirmations and statements. Failure to notify CFSA immediately of any error or omission will bind Customer to the terms of such confirmation or statement, as the case may be.

5. PRICE AVAILABILITY

CFSA will make available, by posting on the internet or providing an operator for Customer to telephone, bid prices and ask prices at which they are prepared to enter OTC FX contracts or cross currency contracts with Customer. Each price shall be for a contract with a specified value date and shall specify each currency pair involved. CFSA expects that these prices will be reasonably related to the bid prices and ask prices available in the market at that time for similar transactions, but a number of factors, including communication system delays, high volume or volatility can result in deviations between quoted prices and other sources. CFSA makes no warranty, express or implied, that prices represent prevailing bid prices and ask prices. Also, any third party introducing agent or advisor may impose additional pips to the bid or ask price that may result in an increase of the dealable spread available for the Customer's Account.

6. TRADING LIMITATIONS

CFSA will attempt to execute all orders that it may, in its sole discretion, accept from Customer in accordance with Customer's instructions received through the Automated Systems or via telephone to the trading desk. In addition, CFSA may at any time, in its sole and absolute discretion, limit the number or types of positions that Customer may maintain or acquire with CFSA, and Customer agrees not to exceed such limits. CFSA is under no obligation to effect any transaction for Customer's Account that would create positions in those accounts in excess of the limit CFSA has set. CFSA will open or maintain the Account and grant a margin facility to the Customer provided that CFSA may, without notice, at any time and from time to time: (i) reduce or cancel any margin facility made available to the Customer or refuse to grant any additional margin facility to the Customer; or (ii) require the Customer to provide margin in addition to the margin requirements of any regulatory authorities. The proceeds from any such sale or action shall be applied first to the payment of all legal and other costs and expenses incurred in connection with the sale or action and next to the payment of the liabilities, as determined by CFSA.
